

R8 Proposal A

	Voting	Non-voting	Total
Europe (incl. Russia)	51 330	5 199	56 529
Middle East and Africa	12 232	8 466	20 698

	Sections	Subsections	Total
Europe	35	1	36
Middle East and Africa	24	9	33

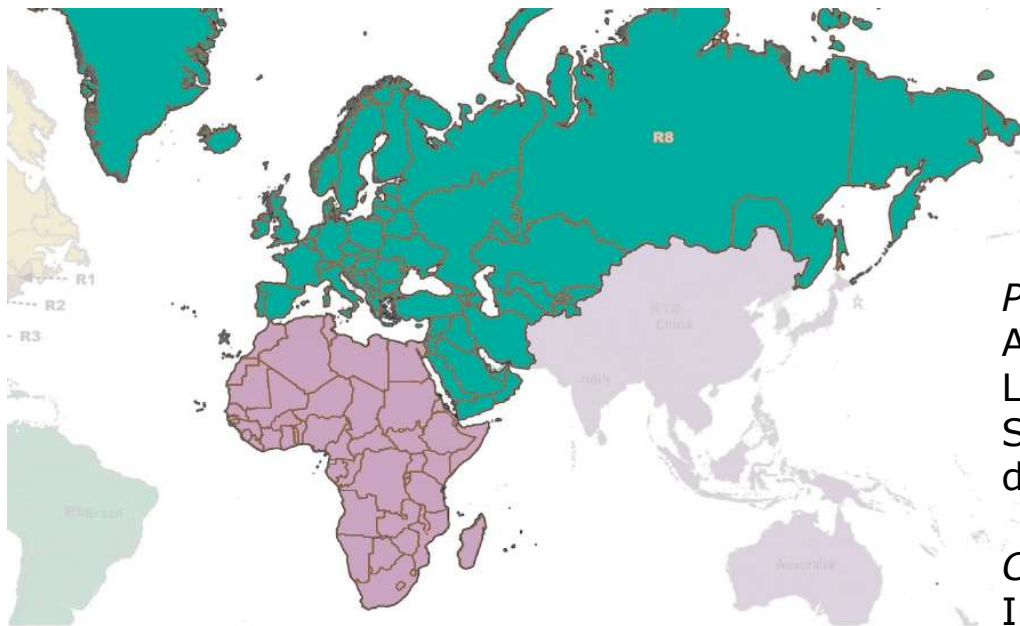

Pros:

Well aligned with continents.
Very well balanced in terms of GeoUnits.
The smaller Region shows the greatest potential to grow.

Cons:

Some adjustments might be needed for few countries.
The geographical sizes of both Regions are still very large.

R8 Proposal B

	Voting	Non-voting	Total
Europe and Middle East	58 766	10 112	68 878
Africa	4 796	3 573	8 369

	Sections	Subsections	Total
Europe and Middle East	48	4	52
Africa	11	6	17

Pros:

Aligned with continents.
 Less challenges with unique countries.
 Student membership is growing in Africa, demonstrating potential for future growth.

Cons:

Initially, membership in Africa would be small. Financial sustainability can be solved with temporary support from other Region (formerly part of the current R8).
